### World Vision Bangladesh Response

WVB is closely coordinating with the Department of Disaster Management (DDM), Government of Bangladesh (GoB), "National Alliance for Humanitarian Actors, Bangladesh (NAHAB)", Needs Assessment Working Group-Bangladesh, Food Security Cluster, WASH cluster, Health Cluster, Start Fund Bangladesh, INGO Emergency Subcommittee, and some local and national NGOs working in the flood prone areas. World Vision also actively participates in humanitarian clusters mobilized in affected areas.

WVB has 130 trained staff as part of the National Disaster Management team, ready to be deployed in the field and roll out emergency response implementation when required.

World Vision Bangladesh has been awarded USD 152,125 by Start Fund, UK Aid and a 45-day response plan has been rolled out in Bandarban.

The local level Government has welcomed World Vision's support and programming there. A 20 member assessment team has already been deployed to conduct house hold assessment in Bandarban Sadar and Lama to select project beneficiary.

### Priority Sectors

Based on the assessments and continuing situation, World Vision Bangladesh looks into assisting 20,000 Households (HHs). focusing on the following sectors: Food, WASH, Protection and Livelihood. A funding of at least USD \$ 1 million will be needed to effectively implement a three-month response.

### Response Plans

WV is currently present in 3 districts (Bandarban, Jamalpur & Gaibandha) via sponsorship and grant project work; and have started floods prepositioning internally and externally since early July.

The initial response targets 20,000 households for 3 months. World Vision Bangladesh is also closely monitoring the situation and will scale up the the flood response, depending on how the flood situation unfolds in the coming monsoon season.
