PRIORITY SECTORS

EDUCATION & LIFE SKILLS

Children are equipped with literacy, numeracy & life skills

Reaching **413,000** children with positive learning environments for both students and teachers.

122,000 early grade learners assisted with the Unlock Literacy Model in 2019.

Over **75,000** girls and boys in **320** schools targeted by the Improving Gender Attitudes, Transition and Education (IGATE) to increase enrolment and participation of girls in the classroom, by improving livelihoods at the household level.

Core models

1. Unlock Literacy & Youth Ready
2. Whole School Development
3. Community Based Education
4. Girls Leadership, Community Engagement

PROTECTION OF CHILDREN

Children are protected from abuse, exploitation & other forms of violence

World Vision partners with the government, UN agencies, churches and families to help keep children safe.

Through the Citizen Voice and Action (CVA) program we are mobilizing and equipping citizens to monitor government services, empowering them to advocate for their needs among policy makers.

Our interventions include establishing child protection committees and working with local leaders and various partners to ensure child-friendly services. Through the PowerWithin model, girls are mentored and empowered with skills to ensure they are confident and have meaningful participation in society.

Core Advocacy issues

1. Birth Registrations
2. Sexual Violence against children
3. Access to education by the girl child and other vulnerable groups
4. Advocating for the alignment of laws that protect children

HEALTH, NUTRITION & WASH

Increase in children who are healthy & well-nourished

More than **481,100** people reached through WASH interventions with **400** villages certified Open Defecation Free (ODF) across the country.

Helping improve food and nutrition security of **60,000** farmers in Mt Darwin and Guruve districts through the Enterprize program.

Improved resilience capacity of **300,000** people through Food for Asset programming in Manicaland and Masvingo provinces under the Ensure program (stunted children under the age of 5 from **28%** at baseline in 2014 to **20%** at end line in 2019).

Core models

1. Positive Deviance (PD) Hearth
2. Timed and Targeted Counseling
3. Sista2Sista
4. Demand led sanitation
5. Participatory Health and Hygiene Education
6. Self supply
7. Community supply
8. WASH in Schools
9. WASH in Health Care Facilities

RESILIENCE & LIVELIHOODS

Ensuring Households are resilient & have enhanced production & productive capacities

100,000 people assisted through resilience and livelihood activities which has increased their ability to engage in economic activities.

Promoting enhanced trade, employment creation, food security and inclusive green economic growth for **24,900** small to medium farmers and **100** commercial farmers through the BEST project.

165,000 people, including children, reached in 2019 through 20 livelihood projects implemented across the country.

5,352 village savings groups with a gross output of **US\$3, 3 million**.

Core models

1. Building secure livelihoods and access to markets
2. Ultra poor graduation

PRIORITY SECTORS

FAITH & DEVELOPMENT

Empowering communities to have faith that works

World Vision partners with various faith groups including AWANA, Biblica, the Evangelical Fellowship of Zimbabwe, Zimbabwe Council of Churches, the Catholic Bishop's Conference, Scripture Union, One Hope and the Union of Apostolic Churches in Zimbabwe. Activities focus on child protection, life skills and other initiatives.

173,107 children participated in spiritual nurturing activities in 2019 through WV Area Programs while **5,000** children benefitted from our core faith and development models.

Core models

1. Empowered World View
2. Celebrating Families
3. Dare to Discover
4. Channels of Hope Gender
5. Channels of Hope Child protection
6. Channels of Hope MNCH+
7. Psychological First Aid in response to COVID-19

EMERGENCY RESPONSE

We are responsive

WVZ responds to slow and rapid onset emergencies as part of its overall mandate. This includes drought response, seasonal food insecurity and outbreaks such as flash floods, cholera and typhoid. Where possible cash and voucher assistance is provided to supplement in-kind and other assistance including building productive assets.

WVZ helps affected communities to 'build back better' through Disaster Risk Reduction efforts that currently focus on building the resilience of **100,000** households.

190,403 people were reached through Cyclone Idai & drought response activities. WV was one of the first responders on the ground.

Over **1,223,378** reached through food assistance during 2020.

2,587,074 reached through various COVID-19 interventions to date. WV has focused on the following interventions: awareness raising across various communities, enhancing local health systems, including the distribution of PPE's, livelihoods and food security and advocacy.
