Reporting period : 21 Novembre 2024 to 20 Décembre 2024

COUNTRY SECURITY & HUMANITARIAN SITUATION OVERVIEW

HUMANITARIAN SITUATION IN THE COUNTRY

- The Diffa region, located in the Lake Chad basin, is facing a serious humanitarian crisis due to ongoing conflict and attacks by armed groups.

This situation has caused significant population displacements and a deterioration of living conditions. Internal Displaced Persons, refugees and host communities face major challenges, including

limited access to clean water,

food,

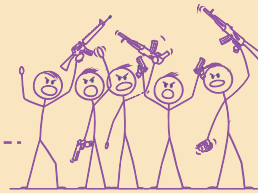

healthcare

and education.

(Source: IOM)

- In 2024, floods in Niger devastated the lives and livelihoods of many populations. As of October 14, the damage identified affected eight regions of the country, affecting more than

195,000

households,

or more than

1.4

million people

These floods have caused considerable losses, jeopardizing the safety and well-being of affected families, and requiring urgent intervention to meet their basic needs and support their recovery.

The Humanitarian needs in Niger continue to increase,

but access for humanitarian actors is hampered by military restrictions, risks of kidnapping and threats from armed groups.

RESPONSE HIGHLIGHTS AND ACHIEVEMENTS

KEY HIGHLIGHTS AND ACCOMPLISHMENTS

- In response to the 2024 floods, approximately

15,400 vulnerable people in Maradi, Tahoua and Zinder regions received unconditional financial assistance through funding from World Vision.

This initiative made it possible to assist

2,200 households, each receiving **\$70**, for a total of **\$153,044**

This aid provided crucial support, allowing affected families to meet their immediate needs and begin rebuilding their lives after the disaster.

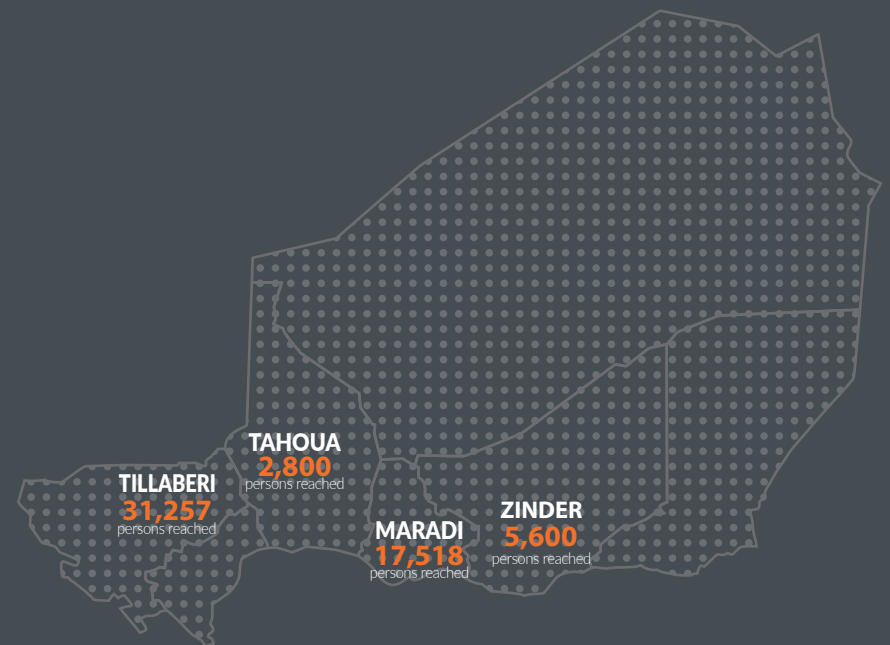

ACHIEVEMENTS PER SECTOR

ACHIEVEMENTS PER REGION

FOOD SECURITY & LIVELIHOODS

KEY HIGHLIGHTS AND ACCOMPLISHMENTS

- **400** vulnerable households in the Tahoua region, affected by the 2024 floods, received financial assistance of  \$ **70** per household.

This initiative aims to reduce the vulnerability of these

400 households (around **2,800** people) spread across three communes in the region.

In total,

\$ **27,827** were distributed, providing essential support to help these families overcome the challenges posed by the floods and improve their resilience.

- **1,649** vulnerable households affected by the floods received sectoral financial assistance of  \$ **70** each.

This initiative mainly aims to reduce the food vulnerability of these

1,800 households (around **11,543** people) spread across nine communes.

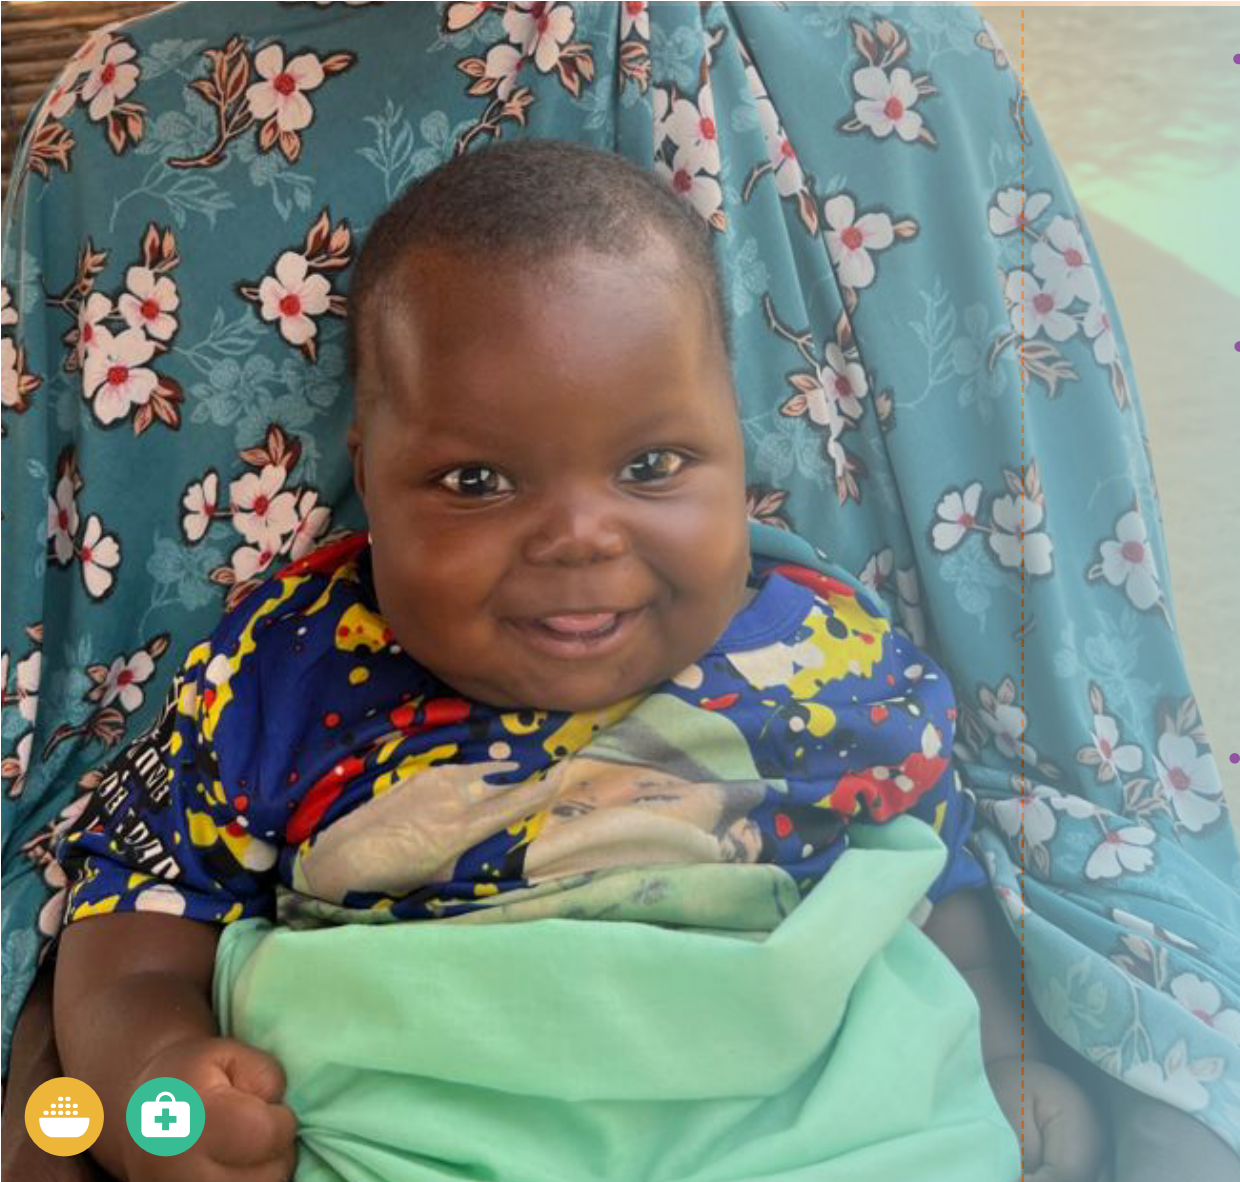

In total, \$ **125,218** were distributed in the form of unconditional cash to improve the food security of affected families.

- A **30** m³ reservoir was built on the market garden site, accompanied by a fountain, to store abundant water when solar radiation is insufficient. This infrastructure will increase the productivity of the site and ensure rational use of water and will benefit to **203** households (**1,421** persons), thus improving their living conditions and food security.
- A supply of tools and work materials including **15** telephones, **15** power banks, **15** bicycles, **75** mats and **15** sets of envelopes was given to the **15** Community Early Warning and Emergency Response System (SCAP-RU) agent in Ouallam. This allocation will make

it possible to improve the functioning of the **15** SCAPRU agents in the transmission of data, thus benefiting **20,573** people (**4,065** women, **3,753** men, **6,633** girls and **6,122** boys), by strengthening their capacity to collect and share crucial information for the community.

- On-site technical training was carried out on 3 market gardening sites located in the communes of Guidan Roundji and Guidan Sori. These training courses benefited **157** farmers, including **103** men, reaching a total of **1,099** beneficiaries. This initiative helped improve the technical skills of farmers, thus strengthening their capacity to optimize vegetable production and improve their livelihoods.
- Women's group of the village of Kouroungoussaou, in the commune of Chadakori, received peanut oil extraction kits. This group, made up of **31** women, benefits from this initiative aimed at improving their financial empowerment and boosting the processing of local products. Thanks to this equipment, women will be able to increase their production of peanut oil, generate additional income and strengthen their economic independence.

HEALTH & NUTRITION

- **200** cooking demonstration sessions were organized in the villages of the FARN site. Through these demonstrations, local communities were able to adopt healthier eating practices, helping to improve their overall health and well-being.

- In this month, screening sessions were organized to assess the evolution of the nutritional status of

7,989 
children.

These sessions not only make it possible to measure the performance of the program, but also to decide on the referral of children to health centers for adequate care.

- **200** awareness sessions on complementary feeding were organized, reaching

2,238
women

and
218
men

Through this initiative, communities have been able to adopt healthier eating practices, helping to improve the overall health and well-being of families.

PROTECTION

- Organization of a social cohesion activities that brought together men, women and children from the town of Ouallam, the refugee camp, the site of internally displaced persons and the village of Samtigué. This event demonstrated the importance of peaceful coexistence for this population. The competition attracted a significant number of spectators, with **243** men and **426** women, for a total of **669** people.
- An awareness campaigns were carried out via community radios (Baarou and Yillwa) in Ouallam and Simiri. **30** messages were broadcast on the themes of inter-ethnic marriage (in Ouallam) and respect for parents.
- Community activities on children's education took place in the villages of Kokobera, Banne Béri, Ouallam and Dabré, reaching **369** people (including **192** women). The objective of these actions is to raise awareness among populations of mutual understanding and tolerance for peaceful coexistence.
- Community awareness raising was also

carried out by the peace committees of the villages of Samari, Tongome and Talkadabey on conflict prevention and management, reaching **2,295** people (including **1,224** women). In addition, awareness campaigns on nature preservation and natural resource management were conducted by the management committees of the restored sites in the villages of Samari and Talkadabey, reaching **5,110** people (including **2,845** women and **118** people disabled). These initiatives aim to promote peace, tolerance and sustainable management of natural resources within communities.

- A football match was organized at the displaced people's site, where six teams (boys and girls) competed against each other. The winning teams (boys and girls) were rewarded with gifts, reaching approximately **203** girls and **191** boys.
- The recreational activities took place on November **30**, 2024, with various games allowing children to have fun and share highlights of entertainment. These activities reached **225** girls and **201** boys, providing a space of relaxation and conviviality for displaced young people.
