Brief Overview

In FY-24, World Vision Eswatini made significant strides in enhancing the well-being of vulnerable children and communities through the effective integration of Gifts In Kind (GIK) resources across various sectors. The organization distributed essential items such as school furniture, medical supplies, notebooks, soap, solar panels, wheelchairs, new apparel, and bicycles among others. These contributions have led to improved educational environments, better health services, enhanced personal and public hygiene, increased mobility, and strengthened community resilience. By fostering partnerships and leveraging grant matching opportunities, World Vision Eswatini has not only amplified its impact but also bolstered its credibility and visibility, ensuring sustainable development and community growth.

World Vision Eswatini National Director
Tinah Mukunda

Foreword

The Gifts-in-Kind (GIK) items received in Eswatini have been a huge blessing to the country and communities that benefitted. I am truly grateful to World Vision USA and its partners, for the untiring support extended to the people of Eswatini, particularly the most vulnerable children in need of these provisions.

Through your support, we have managed to fulfill our objectives in FY24. We were able to integrate GIK with Water, Sanitation, and Hygiene (WASH); Health; Livelihood and Resilience; as well as and Community Engagement and Sponsorship Planning. Furthermore, GIK has assisted in the following areas, disaster management unit, grant matching, relationship building by working with strategic partners, motivating community volunteers and the promotion of the World Vision brand. We have created a conducive learning environment for learners by supporting public schools with school supplies and school furniture, brought solar energy to communities in the rural areas for powering water systems.

World Vision has, through the GIK support, also perpetually transformed the lives of children, their families, and communities through the different interventions. The need for GIK is very huge as there are still gaps in social service delivery, especially in public institutions, hence the need for continued support.

Once again, on behalf of Emaswati, I would like to extend my appreciation for the great support you wholeheartedly offer to us.

Introduction

In pursuit of accomplishing comprehensive child well-being objectives, World Vision Eswatini integrated Gifts-in-kind (GIK) resources into its priority sectors (technical programmes) and strategic partnerships. This is entrenched in the commitment to the most vulnerable children located across World Vision area programmes and non-area programmes. The initiatives have brought about transformational change to the children, families and communities being served. In FY23/ FY24, the office received 24 shipments from the USA, valued at \$2,324,845.
