

DISASTER RISK MANAGEMENT

Technical Programme

VISION

Communities are able to cope with disaster shocks and stresses

GOAL

Communities are prepared to mitigate, respond to and recover quickly from disasters

RESULTS

- Children feel more safe and prepared for disasters
- Communities have mapped and taken action to reduce risks in their area
- Families have savings and grab-bags in place, in case of disasters
- Local disaster committees have the skills and plans in place to launch response to disaster
- Lives are saved during future disasters

WHAT WE WILL ACHIEVE?

261,000

people better prepared to cope with disaster shocks including more than 109,000 children

183

LDRMPs implemented at local level

4,700

youth equipped as first responders

183

community based youth groups established as watchdogs on DRM

HOW DO WE ACHIEVE THIS

Equip communities to map and understand the disaster risks in their area

Establish and work with stakeholders to implement Local Disaster Risk Management Plans (LDRMP)

Integrate Disaster Risk Reduction (DRR) into learning and school curriculum

OUR APPROACHES

Local Disaster Risk Management Plans

Facilitate and enhance capacity to manage risk

Key activities

- Support district officials and stakeholders with developing, reviewing and implementing Local Disaster Risk Management Plans (LDRMPs)
- Facilitate and empower communities to establish and implement child-focused and participatory Community Based Disaster Risk Management Plans and advocate to ensure they are incorporated into local government plans

Engage local youth and CBOs

Mobilise youth to manage disasters

Key activities

- Build capacity of WVIN and partner NGOs to facilitate the Disaster Risk Management (DRM) process
- Identify active youth in communities and prepare them to map hazards in their community and provide leadership during disaster management planning and response
- Build capacity of community youth on development and implementation of Local Disaster Risk Management Plan

Advocacy through media and partnership

Mobilise networks and media for disaster advocacy

Key activities

- Raise awareness on the importance of DRM measures and functioning mechanism in-country
- Promote network and cooperation between WVIN and Ministry of Home Affairs, Ministry of Federal Affairs and General Administration, INGOs, UN and other actors at the national level

Comprehensive School Safety Framework

Support School Management Committees with implementation of the school safety framework

Key activities

- Assess and strengthen structural safety of school facilities
- Build DRM capacity among school management committees, teachers and students
- Establish school disaster risk reduction and management plans
- Educate children on disaster risk and resilience through school curriculum and informal curriculum
